# THE BRIEF

Dubai is the capital of innovation, one of the most dynamic and exciting cities in the world.

Equally, Keturah Reserve at Meydan is the most innovative and exciting New Luxury development in Dubai, with a brand-new concept, transformational living through the design of space.

# KETURAH RESERVE, NEW LUXURY

New Luxury is raw and silent. It elevates and empowers, evoking the profound emotional well-being of mind and body through the design of interior, exterior and personal space. It connects residents with the surrounding nature through Bio Living.

# BIO LIVING AT KETURAH RESERVE

Bio Living is inspired by Biophilic Design, the concept of creating architecture and interiors to enable residents to connect with the surrounding nature. All five human senses are engaged by nature, improving physical and mental well-being and adding real value to residents' lives. Bio Living respects all life forms, flora, fauna and human.

Mohammed Bin Rashid City District 7 (MBR7)

KETURAH RESERVE

BIO LIVING  
DESIGN PROCESS

**DESIGNED FROM THE INSIDE OUT**

We spend 90% of our lives indoors.  
It is where we reconnect with our emotions and our inner self.

Keturah Reserve SuperHomes are uniquely conceived and designed from the inside out using contemporary architectural principles of the five elements, proportions, ratio and daylight, in raw and natural materials to create harmony in space.

# WHY DUBAI?

Dubai is the City of the Future, one of the most exciting, inspirational and successful cities in the world, the global headquarters of crypto currency in DMCC.

Its thriving expat community of over 200 nationalities comprises 80% of the population. Dubai is a pioneer for future urban living with sustainable development an integral part of its Green 2040 Vision.

# THE MEYDAN STORY

Meydan is an Arabic word for an open, urban space for public discussion that traces its origin to the Ottoman Empire.

Keturah Reserve at Meydan is one of Dubai's most exclusive addresses. Meydan is a new sustainable and environmentally friendly development owned by His Highness Sheikh Mohammed bin Rashid Al Maktoum.

It encloses the world-renowned Meydan Racecourse and Grandstand, home of the Dubai World Cup horse racing event.

# KETURAH RESERVE AT MEYDAN

Keturah Reserve is uniquely located at Meydan, the only residential development in Dubai with a direct 7-minute link to Downtown, with four separate exits onto the city's main thoroughfares.

The rooftop with outdoor seating offers a view over the clear, blue Meydan sky, a place to breathe. The double volume, ceiling height and wall thickness are designed to cool the interior spaces naturally, minimizing the need for air conditioning.

ROOF GARDEN

NATURAL SUSTAINABILITY AT KETURAH RESERVE

- Keturah Reserve is designed to be naturally self-sustaining from conception.
- All amenity areas are accessible by foot on tree shaded pathways, eliminating the need of driving from place to place.
- Floorplans are created based on established material measurements to avoid material and energy waste. Materials are specifically selected for their adaptability to the microclimate of Meydan.
- Raw wood is fired a minimum six times to increase durability and resistance to wear and tear.
- High ceilings, wall thickness and windowpane density cool the interior naturally, saving energy by reducing the need for air conditioning.
- Balconies are broader than the norm to reduce the heat and glare of direct sunlight.
- Door frames and garages are wider to facilitate the flow of passage.
- New Luxury integrates sustainability naturally without the need of further human involvement.

**KETURAH RESERVE SUPERHOMES, DESIGNED FROM THE INSIDE OUT**

Keturah Reserve is uniquely conceived and designed from the inside out using principles of the five elements, proportions, ratio and light, and natural materials. All residences are fully furnished, with furniture and fixtures custom-designed and produced for each space in natural, raw materials and in neutral colours. They blend perfectly into the interior, freeing the residents' movement and circulation, and elevating their physical and mental well-being.

Keturah Reserve's Super Home™ Concept is designed to transform residents' lives through their experience of the interior and exterior space.

# THE FLOW OF AIR, LIGHT, COLOUR , SPACE, TEXTURE AND MATERIAL

## THE FLOW OF AIR

Keturah Reserve homes are designed with double volume interior spaces, naturally increasing the flow of air. Keturah Reserve's super-efficient VRF (Variable Refrigerant Flow) technology reduces energy costs, improves residents' comfort, and sends cooled air to evaporators in different spaces, maintaining an even, consistent temperature by zone. The air filtration system silently eliminates pollen, cooking odors and smoke, continuously purifying and refreshing the air.

## THE FLOW OF LIGHT

The architecture of Keturah Reserve is designed to optimize natural daylight without its heat or glare. When daylight fades, architectural lighting optimizes the body's circadian system, enhancing residents' mood, comfort and alertness, and improving the quality of their sleep.

Lighting is always lateral, never directly overhead, to optimize visual comfort, enhance the space and create atmosphere by zone, for a subtle and healing ambiance

## THE FLOW OF COLOUR

The architecture of Keturah Reserve homes blends into the rawness of the desert landscape, to create an ambiance of solace and serenity. The bleached bone-coloured travertine facade links the exterior to the interior, with bronze vertical slats creating a subtle interplay of light and shade.

The three cool-neutral tone-on-tone palette of cream, champagne and bronze, and three textures of wood, stone and metal, are inspired by the natural colours and textures of the surrounding desert.

## THE FLOW OF SPACE

Keturah Reserve homes are conceived and designed from the inside out using contemporary architectural principles of the five elements, proportions, ratio and daylight, in raw, natural materials.

The double volume open plan spaces optimize the flow of passage, without corridors or hallways. Furniture and fixtures are custom-designed for each residence and produced for each space.

They blend perfectly into the interior, freeing the flow of residents' movement, and elevating their physical and mental well-being.

## THE FLOW OF TEXTURE AND MATERIAL

The project's design began with the selection of textures, glass, travertine, wood and metal. Raw materials are selected to correspond with the flow of energy. Perfect individually, they interplay and exchange energies when placed together.
